Total Price: ~~\$350~~

(Processing fee included) **\$325**

Special

Community of Large Order Option

Purchase a Whole, Side of Quarter Order of Beef

The most cost effective cow pooling option is to purchase an entire cow or a side of beef with a group of friends and neighbors. Your or your group's organizer will be responsible for placing orders with Hibiscus Hill and distributing the cuts to the group. Payment is required at the time of ordering.

Our knowledgeable staff can help your organizer with cut selections and answer any questions you have regarding the cow pooling process. Simply call our farm to discuss your customer cutting and packaging options, and place your order.

Whole:	\$6.00/lb	Special:	\$6.00/lb
Half:	\$6.25/lb	Special:	\$6.00/lb
Quarter:	\$6.50/lb	Special:	\$6.00/lb

Add 75c/lb for butcher paper & \$1.50/lb for vacuum pack or cellophane

Processing fees for whole, half and quarter purchases not included

Purchase 1/8 of Grass-fed Beef

The easiest cow pooling option is to purchase our standard 1/8 cut of grass-fed beef. This option removes the need for a person to coordinate and deliver meets to each participant. Each order is processed individually at a cost of about \$7.00/lb in hanging weight, including processing.

This option includes 1/8 beef reduced to 50 pounds total hanging weight. See the table to the left for the contents of a typical 1/8 cut.

You may also share a hog, goat or lamb. Call for options.
